CONTENTS OF VOLUME 388

July 1987

ESHEL Dan & PRIEL Zvi Characterization of metachronal wave of beating cilia on frog's palate epithelium in tissue culture. 1

SZOLCSÁNYI J. Selective responsiveness of polymodal nociceptors of the rabbit ear to capsaicin, bradykinin and ultra-violet irradiation. 9

ANDREWS P.L.R., BINGHAM S. & WOOD K.L. Modulation of the vagal drive to the intramural cholinergic and non-cholinergic neurones in the ferret stomach by baclofen. 25

VAN VLIET Bruce N. & WEST Nigel H. Responses to circulatory pressures, and conduction velocity, of pulmocutaneous baroreceptors in *Bufo marinus*. 41

VAN VLIET Bruce N. & WEST Nigel H. Response characteristics of pulmocutaneous arterial baroreceptors in the toad, *Bufo marinus*. 55

ANGUS J.A. & COCKS T.M. The half-life of endothelium-derived relaxing factor released from bovine aortic endothelial cells in culture. 71

ROSS H.-G. & THEWISSEN M. Inhibitory connections of ipsilateral semicircular canal afferents onto Renshaw cells in the lumbar spinal cord of the cat. 83

HESS R.F., NORDBY K. & POINTER J.S. Regional variation of contrast sensitivity across the retina of the achromat: sensitivity of human rod vision. 101

KENT Paul W. & MIAN Nasi Transmural calcium fluxes and role of mucins as cellular calcium-transport vehicles in chicken trachea *in vitro*. 121

DERKACH V.A., NORTH R.A., SELYANKO A.A. & SKOK V.I. Single channels activated by acetylcholine in rat superior cervical ganglion. 141

BOUVIER M., GRIMAUD J.C., NAUDY B. & SALDUCCI J. Effects of morphine on electrical activity of the rectum in man. 153

CLAUSEN Torben, EVERTS Maria Elisabeth & KJELDSEN Keld Quantification of the maximum capacity for active sodium–potassium transport in rat skeletal muscle. 163

MACKLER Scott A. & SELZER Michael E. Specificity of synaptic regeneration in the spinal cord of the larval sea lamprey. 183

EYSEL Ulf Th., PAPE Hans-Christian & VAN SCHAYCK Rudolf Contributions of inhibitory mechanisms to the shift responses of X and Y cells in the cat lateral geniculate nucleus. 199

ROBERTS William M. Sodium channels near end-plates and nuclei of snake skeletal muscle. 213

BELGUM Jack H., DVORAK David R., MCREYNOLDS John S. & MIYACHI Ei-Ichi Push–pull effect of surround illumination on excitatory and inhibitory inputs to mudpuppy retinal ganglion cells. 233

KAPLAN Jack H., KENNEDY B.G. & SOMLYO A.P. Calcium-stimulated sodium efflux from rabbit vascular smooth muscle. 245

DEITMER Joachim W. & SCHLUE Wolf-R. The regulation of intracellular pH by identified glial cells and neurones in the central nervous system of the leech. 261

MALHOTRA Ravindra K. & WAKADE Arun R. Vasoactive intestinal polypeptide stimulates the secretion of catecholamines from the rat adrenal gland. 285

BOYETT M.R., HART G., LEVI A.J. & ROBERTS A. Effects of repetitive activity on developed force and intracellular sodium in isolated sheep and dog Purkinje fibres. 295

ASHMORE J.F. A fast motile response in guinea-pig outer hair cells: the cellular basis of the cochlear amplifier. 323

ALLEN T.G.J. & BURNSTOCK G. Intracellular studies of the electrophysiological properties of cultured intracardiac neurones of the guinea-pig. 349

BRENNER H.R., LØMO T. & WILLIAMSON R. Control of end-plate channel properties by neurotrophic effects and by muscle activity in rat. 367

CERVERO F. & TATTERSALL J.E.H. Somatic and visceral inputs to the thoracic spinal cord of the cat: marginal zone (lamina I) of the dorsal horn. 383

HESS C.W., MILLS K.R. & MURRAY N.M.F. Responses in small hand muscles from magnetic stimulation of the human brain. 397

MICHEL C.C. & PHILLIPS Mary E. Steady-state fluid filtration at different capillary pressures in perfused frog mesenteric capillaries. 421

TAYLOR P.S. Selectivity and patch measurements of A-current channels in *Helix aspersa* neurones. 437

GUARNIERI Thomas Intracellular sodium–calcium dissociation in early contractile failure in hypoxic ferret papillary muscles. 449

DAVIS P.J. & NAIL B.S. Quantitative analysis of laryngeal mechanosensitivity in the cat and rabbit. 467

PARNAS H. & PARNAS I. Influence of depolarizing pulse duration on the time course of transmitter release in lobster. 487

AMMAR E.M., HUTSON D. & SCRATCHERD T. Absence of a relationship between arterial pH and pancreatic bicarbonate secretion in the isolated perfused cat pancreas. 495

NADE Sydney, NEWBOLD Peta J. & STRAFACE Samuel F. The effects of direction and acceleration of movement of the knee joint of the dog on medial articular nerve discharge. 505

HARDCASTLE Jacqueline & HARDCASTLE P.T. The secretory actions of histamine in rat small intestine. 521

MCALLEN R.M. Central respiratory modulation of subretrofacial bulbospinal neurones in the cat. 533

ELS W.J. & MAHLANGU A.F.D. Micro-electrode studies on the effects of exogenous cyclic adenosine monophosphate on active sodium transport in frog skin. 547

BREZINA V., ECKERT R. & ERXLEBEN C. Suppression of calcium current by an endogenous neuropeptide in neurones of *Aplysia californica*. 565

TAKAHASHI Tomoyuki & TSURUHARA Hideaki Slow depolarizing potentials recorded from glial cells in the rat superficial dorsal horn. 597

MILES R. & WONG R.K.S. Inhibitory control of local excitatory circuits in the guinea-pig hippocampus. 611

HAMM Thomas M., SASAKI Seiichi, STUART Douglas G., WINDHORST Uwe & YUAN Chun-Su The measurement of single motor-axon recurrent inhibitory post-synaptic potentials in the cat. 631

HAMM Thomas M., SASAKI Seiichi, STUART Douglas G., WINDHORST Uwe & YUAN Chun-Su Distribution of single-axon recurrent inhibitory post-synaptic potentials in a single spinal motor nucleus in the cat. 653

BAUX G. & TAUC L. Presynaptic actions of curare and atropine on quantal acetylcholine release at a central synapse of *Aplysia*. 665

FERRINGTON Dale G., SORKIN Linda S. & WILLIS JR William D. Responses of spinothalamic tract cells in the superficial dorsal horn of the primate lumbar spinal cord. 681

JAFFE Laurinda A., KADO Raymond T. & KLINE Douglas Erratum: *Journal of Physiology* **381** (1986). 705
